Nashik, India  
02/2021 - 02/2022

- Created HTML templates, JavaScript files and CSS for UI module development.
- Demonstrated expertise in HTML5, CSS3, object-orientated JavaScript and large JavaScript applications.
- Gained extensive experience working with common JavaScript libraries such as React and ES6.

## PROJECTS

### • KisanBuddy

The platform allows farmers to create profiles, list their products for sale, and connect with potential buyers or sellers and can arrange transportation.

|

### • Nexus and Portend

**Nexus** is admin panel for portend where admin can analyze various data and generate triggers to send data related to news and analyze data of all the checks created on portend side.

**Portend** is a one stop solution tool for analyzing all aspects of your domain, with simple inputs, this tool creates many reports such as website uptime, SSL certificate expiration time, news related to domain, DNS details, reviews on various websites, risk factors all this was done by using various triggers.

|

### • Tata Motors - eSakha

Purchasing from authorized TATA distributors guarantees that you're getting genuine parts. Counterfeit parts can lead to performance issues and unexpected failures.

|

### • Tata Motors - Avant Garde

Contributed to Tata Motors' Avant Garde internal manufacturing unit project, leveraging my skills to support project objectives and contributing to various aspects within the Avant Garde initiative.

|

### • AudioShots

A platform for listening to short audio on the go, features include audio streaming, adding content on the platform, and filtering content according to users' needs.
